The measures to voluntarily curtail equipment emitting air contaminants:

12. For stage 2 episodes of RHC, NO_x, CO or PM provide the following information:

a) The measures to curtail as much as possible, without upsetting production, equipment operations which emit air contaminants:

b) The measures to postpone operations which can be postponed until after the episode.

13. For each stage 3 episode provide the following information: A list of all equipment, with permit numbers, which can be shutdown without jeopardizing the public health or safety:

<u>Equipment Name and Description</u>	<u>Permit Number*</u>
_____	_____
_____	_____
_____	_____
_____	_____

14. A list of all equipment, with permit numbers, which must be operated to protect the public health or safety, and an estimate of the air contaminant emissions from such equipment:

<u>Equipment Name and Description</u>	<u>Permit Number*</u>
_____	_____
_____	_____
_____	_____
_____	_____

15. Estimate the reductions in emissions of each pollutant for each episode stage as a result of the implementation of this plan.

	<u>RHC</u>	<u>NO_x</u>	<u>(lbs/day)</u>	<u>CO</u>	<u>PM</u>
Stage 1					
Stage 2					
Stage 3					

*Permit number is not applicable for new sources.

16. The following Company officials will be responsible for receiving notification from the Santa Barbara County Air Pollution Control District and will be responsible for initiating company curtailment actions.
