

**SANTA BARBARA COUNTY
AIR POLLUTION CONTROL DISTRICT
POLICIES AND PROCEDURES**

Policy No. <u>6100.005.1988</u>	Draft <u> </u>
Div Pol Yr	
Supersedes No. <u> </u>	Final <u> x </u>
Div Pol Yr	
Date: <u>July 26, 1988</u>	Pages <u> 1 </u>
Topic: <u>Applicant Request to Waive Permit Conditions</u>	
Distribution: <u>APCD Staff</u>	

Once an Authority to Construct or Permit to Operate is issued with conditions, the District does not have the authority to waive implementation of the conditions when requested to do so by the applicant. In the event an applicant desires to have permit conditions waived for any reason, and notifies the District in advance of the required compliance dates, District staff should advise the applicant that a variance must be obtained through the Hearing Board process in order to obtain relief from the conditions. If District staff are notified or become aware, following a compliance date, that a company has failed to implement a permit condition, a Notice of Violation shall be issued in a manner deemed appropriate by the assigned inspection and engineering staff.

Policies and Procedures Memoranda are intended to provide agency staff, applicants and the public guidance relative to standardized District procedures. These policies and procedures shall not be interpreted in conflict with District Rules and Regulations or administrative policies, and may be modified or updated periodically without advance notice.
