Applications accepted on a first-come first-served basis. The Off-Road Equipment Replacement Program is a new component of the Carl Moyer Program. Visit OurAir.org to learn more about the program, including guidelines and requirements.

More »

Equipment Requirements

Your **old** equipment is eligible* for replacement if:

- ▶ It meets the definition of an off-road vehicle: self-propelled diesel fueled or large spark ignited (LSI)
- ▶ Has an uncontrolled (Tier 0), a Tier 1 or Tier 2 diesel powered engine or large spark ignition engine
- ▶ The emission reductions from the project are not required by law (local, state, or federal regulation)

Your **new** equipment receiving funding* must:

- ▶ Be a new vehicle
- ▶ Be powered by a current model year California emission standard compliant engine, 25 HP or larger
- ▶ Have a power rating within 125% of the old equipment
- ▶ Execute the same job as the old piece of equipment
